

LISHI LASER N₂/O₂ Mixed Gas Device

Replaces the air compressor. 95% less electricity, 3× faster cutting, zero burrs.
Mexico's industrial electricity costs 127% above the world average — this device turns that liability into competitive advantage.

**127%**

Mexico industrial electricity vs
world average

2 kW

Mixer power draw vs 37+ kW for
a compressor

~\$13,800

Annual electricity savings per
laser, single shift

13–22

Month payback on electricity
savings alone

Quick Comparison: Mixed Gas Device vs Air Compressor

FACTOR	N ₂ /O ₂ MIXED GAS DEVICE	AIR COMPRESSOR (50HP)
Power consumption	~2,000 W	~37,000 W
Annual electricity cost	~\$800 USD	~\$14,600 USD
Cut edge quality	Burr-free, weld-ready	Oxidized edge, needs grinding
Cutting speed	3× faster than O ₂	1× (baseline)
Maintenance	Near zero	Filters, oil, belts
Grinding labor	Eliminated	\$8,000–\$15,000/year

Why Mexico Is the Perfect Market

Electricity 127% above world average

Every watt-hour saved goes to profit. For a 3-laser shop, annual savings can exceed \$41,000 USD.

7th largest auto producer globally

Hundreds of Tier-1/2 suppliers need precision cutting. Burr-free edges are a requirement, not a luxury.

Nearshoring boom

US companies relocating supply chains to Mexico. New fabrication shops open monthly — greenfield sites, no legacy equipment.

500–1,400 shops with 12kW+ lasers

Estimated addressable market. At 5% penetration over 3 years = 60–120 units sold.

Key Industrial Clusters

Monterrey, NL

Industrial capital — automotive, steel, appliances

Querétaro / Bajío

Aerospace corridor — Bombardier, Airbus, Safran, GE

Guanajuato

Automotive hub — GM, Toyota, Honda, Mazda

Edo. Méx. / CDMX

Largest concentration of manufacturing SMEs

Tijuana / Cd. Juárez

Maquiladora zone — US export-oriented, high standards

San Luis Potosí

BMW + supplier park — growing industrial base

Actively Seeking a Distributor in Mexico

LISHI LASER is expanding in Latin America. We are looking for an established distributor with industry connections to represent the Mixed Gas Device in Mexico. Exclusive territory, factory-direct pricing, full technical support.
